

# Candera nominated for Car HMI Europe Award with CGI Studio 3.10's "Smart Importer"

Candera GmbH is delighted to announce to have been nominated with their "Smart Importer" for the Car HMI Europe Award 2021 in the category "Most Innovative Application of Machine Learning & AI in Automotive HMI + UX".

The "Smart AI-based graphics Importer" is the highlight feature of CGI Studio 3.10, which will be presented at the Car HMI Europe for the first time. Candera's Smart Importer enables all users (including those without programming skills) to automatically generate full functioning HMIs using their designs from any graphics software - opening the door to faster, more efficient HMI creation.

Car HMI Europe 2021

**Meet us at Car HMI Europe**  
June 27-29, 2021 – Berlin, Germany

Taking place from June 27-29 in Berlin, Germany, the well-established international knowledge exchange platform brings together all stakeholders playing an active role in the technical and design field for automotive HMI and UX development.

The Cander team is glad to be back in person after all the remote events and will proudly present for the first time **Cander's latest CGI Studio version 3.10**. In the spotlight is the now established "Smart AI-based graphics Importer", which automatically transforms graphics into fully functional HMIs. The "Smart Importer" now also permits direct import from PSD, Sketch or Axure RP.

*Cander's AI based Smart Importer helps you to easily import your graphic files into CGI Studio and automatically adds functionality to your UI elements.*

More highlights of CGI Studio 3.10 include the new Japanese user interface in addition to English, enhanced samples and tutorials for easy onboarding, and improved "Cander LINK" remote rendering.

*In "CGI Studio 3.10", a Japanese user interface has been added in addition to English.*

All of which will help designers to save precious time and costs.

The Cander team is looking forward to meeting you at the Car HMI Europe from June 27-29:

**TITANIC Chaussee Berlin**

Chausseestraße 30, 10115 Berlin, Germany

Based on over 20 years of experience in the embedded software development together with our broad customer base we have created a mature feature-rich and customizable product. In fact, CGI Studio today covers all aspects of automotive GUI development and beyond. Furthermore, we're closely working together with our customers and industry partners to provide solutions for present and future HMI needs.
